MISSOURI HEALTH CARE ASSOCIATION CHOOSES UPSTAIRS SOLUTIONS AS AN E-LEARNING AFFINITY PROGRAM PARTNER FOR MISSOURI APPROVED CEU'S, COMPREHENSIVE E-LEARNING LIBRARY AND RECORD KEEPING SYSTEM

*Demos Hosted at Upstairs Solutions' Booth #324 at
MHCA'S 63RD Annual Convention in Branson*

SKOKIE, IL, AUGUST 19, 2011 – The Missouri Health Care Association (MHCA) has chosen Upstairs Solutions as an e-learning affinity program partner, bringing MHCA provider members and non-member providers an extensive catalog of CEU courses, an easy-to-access CEU web portal, and discount pricing on Upstairs Solutions' complete e-learning library and record keeping system (LMS). CEU courses can be accessed by clicking on the Upstairs Solutions logo at www.mohealthcare.com.

“Fostering a relationship with Upstairs Solutions fuels MHCA’s commitment to ensure quality care is a reality for all Missouri senior care residents. Upstairs Solutions’ robust e-learning library, record keeping system and affordable per course pricing brings better access to superior training for Missouri senior care providers,” said Jon Dolan, executive director of MHCA.

Providers can view Upstairs Solutions’ course library and Missouri-approved CEUs at booth #324 at MHCA’s 63rd Annual Convention in Branson on August 21-25th. Each course uses Upstairs Solutions’ industry leading multimedia, interactive approach. The CEU curriculum covers a wide range of subjects from hand hygiene and medication administration to HIPAA primers and investigating employee accidents.

As an affinity program partner, Missouri providers can benefit from Upstairs Solutions' discount pricing of more than 130 online modules and its proactive LMS record-keeping system, which eliminates scheduling and manual tracking of completed courses, in-services, orientation, and compliance training. For more information on discount pricing contact Upstairs Solutions at www.upstairssolutions.com or call 1-866-763-4500.

“Upstairs Solutions is a provider-owned company so we understand the need to provide staff with current and progressive in-services and licensure training. Enabling easy access to a robust e-learning library of state approved courses means the provider's responsibilities get easier and their training gets better,” noted Tamar Abell, principal, Upstairs Solutions.

About Missouri Health Care Association

Missouri Health Care Association (MHCA) is Missouri's largest long term care trade association representing over 350 of the state's 500 licensed skilled nursing facilities and many assisted living and residential care facilities. MHCA serves as a resource for member facilities while improving the quality of life for long term care residents. For more information, contact MHCA at (573) 893-2060 or visit www.mohealthcare.com.

About Upstairs Solutions

Upstairs Solutions is a provider-owned company with the mission to continually raise the bar in senior care training. The company offers more than 130 online courses, specifically developed for senior care, and an easy-to-use record-keeping system (LMS) to manage and track training, licenses and competencies. Upstairs Solutions' online training is cheat-proof and uses multimedia to create engaging and interactive courses for orientation, CEUs, compliance training and in-service instruction. For more information go to www.upstairssolutions.com or call 866-763-4500.
